SUBJECT INDEX

Items of medical and pediatric interest from other sources which appeared in this volume are included in the index and are followed by "note" in parenthesis. "Ethics" includes items and topics of interest to ethicists as well as ethical issues *per se*.

ABO hemolytic disease 875
Abscess, peritonsillar 570
Accidents (*see also* Poisoning),
  car safety seats (letter) 576
  post-traumatic hypopituitarism 893
  removal of foreign bodies 931
  skateboard (committee statement) 793
Acidosis, and diminished lecithin synthesis 32
Actifed-C, dangers of (letters) 164
Adenitis, streptococcal cervical 424
Adenoidectomy, review 401
Adolescent medicine,
  confidentiality (commentary) 170
  consent (committee statement) 414
  malpractice 392
  smoking (committee statement) 465
Adrenal hyperplasia 942
Aerosols, isoproteronol (letters) 579, 580
Airline travel, in chronic pulmonary disease 408
Allergy (*see* Hypersensitivity)
Alpha$_1$-antitrypsin deficiency,
  in liver disease 226
  in membranoproliferative glomerulonephritis 232
American Academy of Pediatrics,
  announcements 585, 589, 819, 984
  changing oxygen recommendations 635
  COMMITTEE STATEMENTS,
    Academy policy in relation to the pediatric nurse associate 467
    Adverse reactions to iodide therapy of asthma and other pulmonary diseases 272
    Carcinogens in drinking water 462
    Commentary on breast-feeding and infant formulas, including proposed standards for formulas 278
    Consent 414
    Current status of ampicillin-resistant *Hemophilus influenzae* type b 417
    Effect of age, sex, race, and economic status on dental caries experience of the permanent dentition 457
    Effects of cigarette-smoking on the fetus and child 411
    Generic prescribing 275
    Hazards of skateboard-riding 793
    History of oxygen therapy and retrolental fibroplasia 591
    New approach to teen-age smoking 465
    Special diets for infants with inborn errors of amino acid metabolism 783
    Trends in fatness and the origins of obesity 443
  demolishing private practice? (letters) 577, 578, 579
  Executive Board and pediatric nurse associate (letters) 813
  safety of ultrasound (letters) 162, 163
  Task Force on Pediatric Education (commentary) 828
  trends in pediatric urology (meeting report) 971
Amino acid metabolism,
  diet for inborn errors of (committee statement) 783
  lysine malabsorption 102
Anemia, iron-deficiency 136
Anhidrosis, and sensory neuropathy 259
Animal studies,
  effect on phototherapy on platelets in rabbits 506
  pulmonary lecithin, fetal in monkeys 722, synthesis in rats 32
  oxygen therapy and retrolental fibroplasia 615
  reversal of DNA synthesis in mouse 41
  rickets in rats (note) 186
  seizures and malnutrition in rats 197
Anticonvulsants,
  and antinuclear antibodies 529
  and rickets (letters) 979
Antigen typing, in celiac disease and cystic fibrosis 715
Antinuclear antibodies, and anticonvulsants 529
Apnea,
  and sleep states 142
  hypoventilation in quiet sleep 342
  uses of xanthines in (letter) 293
Arginine hydrochloride, questions on inhalation (letters) 166
Artery,
  radial, indwelling catheter (letter) 163
  umbilical, changing (letter) 293, Po_2 monitoring 244
Arthritis,
  juvenile rheumatoid, needle biopsy 696
  septic, in infancy 573
  temporomandibular joint 810
Asbestos, in drinking water (committee statement) 462
Asthma,
  adverse reactions to iodide therapy (committee statement) 272
  compliance 513
  isoproteronol aerosols (letters) 579, 580
  ventilatory response to carbon dioxide 952
Ataxia, cerebellar 150
Atresia,
  esophageal 87

gastrointestinal 268

Babinski sign, reappraisal of 13
Bacteremia (*see also* Infections),
hematology of 839
outpatient clinical review 861
"walk-in" (commentary) 827
Battered baby syndrome (*see* Child abuse)
Beta-cell hyperplasia, neonatal pancreatic 897
Beta-sitosterol, levels in children 60
Blood (*see also* Heart),
ABO hemolytic disease 875
capillary sampling technique 966
consumption coagulopathy 803
free erythrocyte porphyrins, and iron deficiency 136, and lead levels 54
hematology of bacterial infections 839
hemophilia carrier detection 251
plasma phytosterols 60
pulmonary flow in premature infants 187
seroresponse to poliovirus vaccination 47
Bone,
benign familiar macrocephaly 535
defective mineralization in low-birthweight infants 16
osteomyelitis, detection of 173
rickets, experimental pathogenesis (note) 186
skeletal hemangiomatosis 803
skull fracture, growing 26, post-traumatic hypopituitarism 893
temporomandibular joint arthritis 810
Book Reviews,
Heart Disease in Infancy 290
Infant Nutrition 583
Leukemia in Childhood 290
Lipid Metabolism and Atherosclerosis 583
The Cardiac Arrhythmias 583
The Growth and Development of Children 290
Brain (see also Central nervous system, Hyperactivity, Intellectual impairment),
benign familial macrocephaly 535
cerebellar hypoplasia 155
growing skull fracture 26
growth, and corticosteroids (letters) 165
hydranencephaly (letter) 297
hydrocephalus, acquired 652
seizures and malnutrition 197
Breast-feeding,
and calcium deficiency 16
and fat absorption 16
and fluoride supplementation (letters) 981
and hospital maternal care (letters) 294, 295
and immunity (letters) 814, 815
and plasma phytosterols 60
and poliovirus vaccination 47
birthweight doubling time 469
commentary on (committee statement) 278
protein quantity and quality 659
theophylline in milk 518
workshop 741
Bronchial asthma, response to carbon dioxide 952
Bronchopulmonary dysplasia 352

Calcium,
absorption in low-birthweight infants 16
accumulation by fetus (letter) 976
Cancer, and chemicals (note) 651
Camphor poisoning 428
Carbohydrate malabsorption 201
Carbon dioxide response in asthma 952
Carcinogens,
chemical (note) 651
in drinking water (committee statement) 462
Caries, dental (committee statement) 457
Catheter,
cardiac, and hepatic hemangiomatosis 131
radial artery (letter) 163
umbilical artery, changing (letter) 293, Po_2 monitoring 244
Celiac disease, and cystic fibrosis 715
Cellular immunity, and thymic cells (commentary) 643
Central nervous system (*see also* Brain, Hyperactivity, Intellectual impairment),
apnea and sleep states 142
Babinski sign, reappraisal 13
congenital sensory neuropathy 259
effect of methylphenidate 521
histoplasmosis and cerebellar ataxia 150
infection with *Eikenella corrodens* 264
remaining sequelae of perinatal care 652
Cerebellar hypoplasia 155
Cerebral herniation 26
Cerebral palsy 652
Chart audits (letters) 575, 576
Chemicals, carcinogenic (note) 651
Chest pain, in children 648
Child abuse,
corporal punishment (letter) 293
family intervention (letters) 577, 578, 579
multidisciplinary approach 760
unnecessary medical trauma 800
Child growth and development,
Denver Prescreening Developmental Questionnaire 744
educational intervention 765
effect of cigarette-smoking 411
effect of television, on development (commentary) 301, on violence and apathy 329
growth chart criteria (letter) 817
hyperactivity, future (commentary) 1, learning disabilities 4
hypopituitarism, post-traumatic 893
in congenital heart disease 75
in Hurler syndrome 111
in Scheie syndrome 111
insulin responses during catch-up growth 363
milk protein 659
reading (letter) 816
remaining sequelae of modern care 652
screening guidelines (letters) 160, 161
separation protest (letters) 581, 582
Chloramphenicol, and *Hemophilus influenzae* meningitis 387
Cholesterol,
familial hyperlipoproteinemia 68
levels in children 60
neonatal diagnosis 214
Cigarette-smoking,
effect on fetus and child (committee statement) 411
hypnosis (note) 362
teen-age (committee statement) 465
Circumcision, abdominal distension after (letter) 579
Citrullinemia, phenotypic variations 935

Clostridium ghoni arthritis 573
Codeine, in Actifed-C (letters) 164
Colestipol resin, in familial hyperlipoproteinemia 68
Colitis, ulcerative 962
COMMENTARIES,
Children and television 301
Criteria and all that 439
Departments of pediatrics 303
Fatty acids, prostaglandins, and cystic fibrosis 441
Is confidentiality in health care records a pediatric concern? 170
Task Force on Pediatric Education 828
The risks of screening 646
Thymic cells and humoral factors as therapeutic agents 643
"Walk-in" bacteremia 827
Welcome to our new Spanish language edition 1
Where's the hyperactive child going? 1
Who will monitor access? 169
Compliance,
of asthmatics 513
with antimicrobial therapy 383
Computer-assisted intensive care 494
Condyloma accuminata, urethral 571
Congenital defects (*see also* Genetics),
adrenal hyperplasia 942
Babinski sign and neurological deficits 13
cardiovascular malformations, and diaphragmatic hernia 92, and tracheoesophageal fistula 87, early American *case history (note) 91, effect on growth 75, patent* ductus arteriosus 347
cerebellar hypoplasia 155
cigarette-smoking (committee statement)
conductive hearing loss 332
diaphragmatic 92, 807
diet and growth in congenital heart disease 75
from podophyllum 419
genitourinary anomalies 971
multiple, and minor stigmata (letter) 982
patent ductus arteriosus 347
sensory neuropathy 259
Corticosteroids, and brain growth (letters) 165
Cortisone, in adrenal hyperplasia 942
Counseling (*see also* Ethics, Genetics, Physician-patient relationship),
about death 372
and the medical student 321
care of handicapped and dying 372
child abuse 760
educational intervention 765
screening risks (commentary) 646
Cyclophophamide, in nephrotic syndrome 448
Cyst,
bile duct 268
dermoid 378
leptomeningeal 26
Cystic fibrosis,
and celiac disease 715
arginine hydrochloride (letters) 166
fatty acids, abnormal composition 480, and prostaglandins (commentary) 441, supplementation 474

Day care,
and respiratory illness 191
and separation protest (letters) 581, 582
Demographics,
ABO hemolytic disease in Puerto Rico and North Carolina 875
cost of new programs (letter) 581
dental caries (committee statement) 457
insecticide exposure 869
marriage statistics 1973 (note) 220
monitoring access (commentary) 169
mucocutaneous lymph node syndrome in the continental United States 431
registry of handicapped children in Sweden 652
respiratory tract infection in Colombia 123
trends in fatness (committee statement) 443
variations in treatment of pharyngitis 423
variations in treatment of tonsillectomy 401
where are the pediatricians? (letters) 165
Denver Prescreening Developmental Questionnaire 744
Dexamethasone, in adrenal hyperplasia 942
Diabetes, and fetal lung lecithin 722
Diagnostic methods and techniques,
capillary blood sampling 961
chest pain in children 648
echocardiography 543
familial hyperlipoproteinemia 214
free erythrocyte porphyrins screening, for iron deficiency 136, for lead poisoning 54
growth hormone deficiency 712
His bundle recordings 691
hyperinsulinism 702
needle biopsy of synovium 696
osteomyelitis, scintigraphic detection 173
radioisotope scan for Meckel's diverticulum 11
safety of ultrasound (letters) 162, 163
Diaphragm,
hernia 92
posterolateral defect 807
Diazoxide, in pancreatic hyperplasia 897
Diphenylhydantoin, and lupus-like syndromes 529
Diplococcus pneumoniae, outpatient clinical review 861
DNA synthesis, reversal of in newborn lung 41
Drugs (see also individual drug listings),
antibiotic therapy for meningitis 387
anticonvulsants, and antinuclear antibodies 529,and rickets (letters) 979
antimicrobial therapy, compliance 383
danger of combinations (letter) 163
danger of old medications (letter) 296
generic prescribing (committee statement) 275
glucocorticoids and adrenal hyperplasia 942
labeling and drugging (note) 231
requiem for tetracylines (letters) 297, 298
steroids in nephrotic syndrome 948
Dysenteric symptoms, from worms (note) 435

Ear,
pinna anomalies 332
sensorineural hearing defect 652
Echocardiography, and the severely ill infant 543
Electrode, monitoring of arterial Po_2 244
Embryonic development (*see* Pregnancy)
Enterocolitis, necrotizing 201
Enuresis, and allergy 526
Epiglottitis, acute 152
Epilepsy, role of malnutrition 197
Erythrocyte, porphyrins,

and iron deficiency 136
and lead poisoning 54
Ethics (*see also* Counseling, Physician-patient relationship),
books about death 372
child abuse 760
confidentiality (commentary) 170
consent (committee statement) 414
corporal punishment (letter) 293
deciding the care of the handicapped and dying 487
generic prescribing (committee statement) 275
genetic counseling 111
hemophilia carrier detection 251
Mandate Project 775
monitoring access (commentary) 169
oxygen therapy and retrolental fibroplasia 591
unnecessary medical trauma 800
Ethosuximide, and lupus-like syndromes 529
Evel Knievel syndrome 418
Exercise (*see also* Sports), screening test for growth hormone deficiency 712
Eye,
dermoid cysts 378
ophthalmia neonatorum 884
optometry and learning disabilities (letters) 980, 981
oxygen therapy and retrolental fibroplasia 591

Factor VIII antigens, in hemophilia carrier detection 251
Familial diseases (*see* Genetics)
Familial Mediterranean fever 810
Family studies,
dental caries (committee statement) 457
fatness trends (committee statement) 443
Fat,
absorption 16
plasma and dietary phytosterols 60
trends (committee statement) 443
Fatty acids,
abnormal composition in cystic fibrosis 480
and prostaglandins (commentary) 441
in hyperinsulinism 702
supplementation in cystic fibrosis 474
Fistula,
arteriovenous, in Wilms' tumor 564
tracheoesophageal, and cardiovascular malformations 87
Fluoride, supplementation in infancy (letters) 981
Formulas (*see also* Breast-feeding, Nutrition),
and calcium absorption 16
and errors of amino acid metabolism (committee statement) 783
and fat absorption 16
and plasma phytosterols 60
birthweight doubling time 469
milk protein quantity and quality 659
standards (committee statement) 278
Fucosidosis type 2 205
Fusobacterium necrophorum, and peritonsillar abscess 570

Gastrointestinal tract,
amino acid absorption 102
anaeroboic infections 311
atresias 268
host defense mechanisms 901
Meckel's diverticulum 11
Genetics (*see also* Congenital defects),
alpha$_1$-antitrypsin deficiency, in glomerulonephritis 232, in liver disease 226
benign familial macrocephaly 535
cerebellar hypoplasia 155
citrullinemia 935
cystic fibrosis, and celiac disease 715
errors in amino acid metabolism (committee statement) 783
familial hypophosphatemia 221
familial Mediterranean fever 810
familial type II hyperlipoproteinemia 68, 214
fucosidosis type 2 205
GM$_3$ gangliosidosis 106
hemophilia carrier detection 251
Hurler syndrome 111
iduronidase deficiency 111
multiple defects (letter) 982
persistent Mullerian structures 568
Scheie syndrome 111
transport defect 102
Glomerulonephritis, proliferative 232
Glucocorticoids, in adrenal hyperplasia 942
Glucose-intolerant pregnancies and lung lecithin 722
GM$_3$ gangliosidosis 106
Growth chart, criteria (letter) 817
Growth hormone deficiency, screening test 712

Hair, normal measurements in newborns 960
Health care,
delivery, cost of new programs (letter) 581, hospital maternal care (letters) 294, 295, hospital utilization 540, 797, iron-deficiency screening 136, lead poisoning screening 54, mass screening 744, monitoring access (commentary) 169, regulations (letters) 577, 578, 579, report of an experiment 917, screening guidelines (letters) 160, 161
education, departments of pediatrics (commentary) 303, for what? (letter) 581, interviewing skills 769, Mandate Project 775, Task Force (commentary) 828, vulnerability of the medical student 321
records, chart audits (letters) 575, 576, urinary tract infection documentation 754
standards, criteria (commentary) 439, Mandate Project 775, unnecessary trauma 800, urinary tract infection 754, variations in treatment of pharyngitis 423, variations in treatment of tonsillectomy 401
Heart,
atrial septal defect 87, 92
catheterization, and hepatic hemangioepithelioma 131
chest pain in children 648
congenital disease, and diet and growth 75
early American case history (note) 91
ectopic beats 691
failure, due to arteriovenous fistula 564
malformations, with diaphragmatic hernia 92,
with tracheoesophageal fistula 87
patent ductus arteriosus 92, incidence of 347
pericardial window 967
role of echocardiography 543
tachyarrhythmias 691
tetralogy of Fallot 87, 92
transcutaneous Po_2 monitoring 681
ventricular septal defect 87, 92
Helminth parasites, in ABO hemolytic disease

Hemangioendothelioma, hepatic 131
Hemangiomatosis, skeletal and splenic 803
Hemophilia carrier detection 251
Hemophilus influenzae,
ampicillin-resistant (committee statement) 417
epiglottitis 152
meningitis 387
outpatient clinical review 861
with pneumonia 266
Hemophilus parainfluenzae arthritis 573
Hernia,
cerebral 16
diaphragmatic 92
His bundle recordings 691
Histidemia, dietary management (committee statement) 783
Histoplasmosis 150
History and medicine,
development of incubators 594
dysenteric symptoms from worms (note) 435
early American report of heart defect (note) 91
experimental pathogenesis of rickets (note) 435
vitamin D metabolites, discovery of 729
Homocystinuria, dietary management (committee statement) 783
Hospital,
maternal care (letters) 294, 295
nosocomial infection 854
utilization 540, 797
Host defense mechanisms, gastrointestinal 901
Humoral factors (commentary) 643
Hurler syndrome 111
Hyaline membrane disease,
diminished lecithin synthesis 32
Po_2 monitoring 244
Hydranencephaly (letter) 297
Hydrocephalus, acquired 652
Hydrocortisone, and iodochlorhydroxyquin (letter) 163
Hyperactivity,
and learning disabilities 4
drugging (note) 231
effect of methylphenidate 521
food additives hypothesis (letter) 576
future (commentary) 1
methodology questioned (letter) 292
Hyperbilirubinemia,
and phototherapy 836
and radiant flux 502
Hyperinsulinism,
in infancy 702
in pancreatic hyperplasia 897
Hyperlipoproteinemia,
neonatal diagnosis 214
pediatric familial type II 68
Hyperplasia, adrenal 942
Hypersensitivity,
and enuresis 526
to iodide (committee statement) 272
to mephenytoin 98
Hypnosis, and cigarette-smoking (note) 362
Hypoglycemia, in infancy 702
Hypoparathyroidism, and vitamin D toxicity 794
Hypopituitarism,
post-traumatic 893
screening test 712
Hypoplasia, cerebellar 155
Hypotension, from paraldehyde 158

Iatrogenic illnesses,
nosocomial infection 854
paraldehyde toxicity 158
post-pericardiotomy syndrome 967
screening risks (commentary) 646
Iduronidase deficiency 111
Immunity,
breast-feeding 47, (letters) 814, 815
exaggerated natural measles after vaccine 148
host defense mechanisms 901
Incubators, development of 594
Indian infants, breast-feeding and poliovirus vaccine 47
Infections,
acute epiglottitis 152
anaerobic 311
bacterial, hematology of 839
beta-hemolytic *Streptococcus* 306
Clostridium ghoni 573
congenital cytomegalovirus 155
Eikenella corrodens 264
exaggerated natural measles after vaccine 148
Fusobacterium necrophorum 570
Hemophilus influenzae, ampicillin-resistant (committee statement) 417, epiglottitis 152, meningitis 387, outpatient clinical review 861, with pneumonia 266
Hemophilus parainfluenzae arthritis 573
myositis 255
nosocomial, cervical lymphadenitis 854
ophthalmia neonatorum 884
outpatient clinical review 861
Pseudomonas cepacia 239
respiratory tract, and day care 191, in Colombia 123
streptococcal, cervical adenitis 424, pharyngitis 422
urinary tract, and allergy 526, detection 829, documentation 754
"walk-in" bacteremia (commentary) 827
Influenza B, and myositis 255
Insecticide exposure 869
Insulin,
in infancy 702
in pancreatic hyperplasia 897
responses during catch-up growth 363
Intellectual impairment,
and fucosidosis type 2 205
and Hurler syndrome 111
and iduronidase deficiency 111
and lysine malabsorption 102
and transient tyrosinemia 675
GM_3 gangliosidosis 106
hyperactivity and learning disabilities 4
remaining sequelae of modern care 652
Intrauterine growth retardation 652
Intubation, nasotracheal 152
Iodide, adverse reactions to (committee statement) 272
Iodochlorhydroxyquin, and hydrocortisone (letter) 163
Isoproteronol, in asthma (letters) 579, 580

Juvenile rheumatoid arthritis, needle biopsy 696

Ketone bodies, in hyperinsulinism 702
Kidney,
arteriovenous fistula with Wilms' tumor 564
idiopathic nephrotic syndrome 948

mephenytoin toxicity 98
Knee, needle biopsy of synovium 696

Law and medicine,
child abuse 760
confidentiality of records (commentary) 170
consent (committee statement) 414
deciding care of handicapped and dying 487
health visitors (letters) 577, 578, 579
malpractice and the pediatrician 392
monitoring access (commentary) *169*
oxygen therapy and retrolental fibroplasia 591
Laxatives, dangers of podophyllum 419
Lead,
and hyperactivity (letter) 576
from newsprint logs 426
levels, and free erythrocyte porphyrins 54
Leukemia, and the thymus (letter) 296
Liver,
disease, and alpha$_1$-antitrypsin deficiency 227, 232
hemangioendothelioma 131
Low-birthweight infants (see also Neonates, Prematurity),
incidence of patent ductus arteriosus 347
insulin responses during catch-up growth 363
milk protein quantity and quality 659
phototherapy and platelet counts 506
pulmonary blood flow 187
remaining sequelae of modern care 652
Lung,
adverse reactions to iodide therapy (committee statement) *272*
airline travel in pulmonary disease 408
damage from assisted ventilation 352
diminished lecithin synthesis 32
fetal lecithin in monkey 722
oxygen therapy and retrolental fibroplasia 591
pulmonary blood flow in premature infants 187
pulmonary insufficiency of prematurity (letter) 294
reversal of DNA synthesis 41
transcutaneous Po_2 monitoring 681
ventilatory response to carbon dioxide 952
Lymphadenitis, staphylococcal cervical 854
Lymphadenopathy, and mephenytoin toxicity 98
Lymphocytes, and T cell malignancies (letter) 162
Lysosomal storage diseases 205
Lysine malabsorption 102

Macrocephaly, benign familial 535
Malnutrition (see Nutrition)
Maple sugar urine disease, dietary management (committee *statement) 783*
Malpractice,
and the pediatrician 392
oxygen therapy and retrolental fibroplasia 591
Measles, exaggerated after vaccine 148
Mechanical devices,
car safety seat (letter) 576
caution about photoillumination (letter) 975
computer-assisted intensive care 494
development of incubators 594
flexible fiberoptic panendoscopes 931
phototherapy for hyperbilirubinemia 836
scalp needle (letter) 977
tape-recorder to enhance communication 799
Medical societies (see Pediatric and medical societies)
Megacolon, toxic 962
Melanoma, transplacental (letter) 987
Meningitis, *Hemophilus influenzae* 387
Mephenytoin toxicity 98
Methylphenidate, and soft neurological signs 521
Milk *(see also Breast-feeding, Formulas, Nutrition), summary* of a workshop 741
Minimal brain dysfunction *(see Hyperactivity)*
Mucocutaneous lymph node syndrome 431
Mucopolysaccharidoses, clinical features 111
Mullerian structures, persistent 568
Multiple defects, and minor anomalies (letter) 982
Myositis, and influenza B 255

Neonates (see also Congenital defects, Low-birthweight in-
fants, Prematurity),
apnea and sleep states 142
Babinski sign, reappraisal 13
computer-assisted intensive care 494
diagnosis of hyperlipoproteinemia 214
hair measurements 961
hyperbilirubinemia 836
indwelling radial artery catheter (letter) 163
milk protein quantity and quality 659
ophthalmia neonatorum 884
oxygen therapy and retrolental fibroplasia 591
oxygen toxicity in newborn lung 41
pancreatic hyperplasia 897
scalp needle (letter) 977
transient tyrosinemia 675
Nutrition (see also Breast-feeding, Formulas),
birthweight doubling time 469
calcium absorption in low-birthweight infants 16
carbohydrate malabsorption 201
dental caries (committee statement) 457
diet, for errors of amino acid metabolism (committee statement) 783, in congenital heart disease 75
fat absorption in low-birthweight infants 16
formula standards (committee statement) 278
fluoride supplementation (letters) 981
intravenous scalp needle (letter) 977
milk, protein quantity and quality 659, workshop summary 741
plasma and dietary phytosterols 60
rickets (note) 186
seizures 197
therapy for familial hyperlipoproteinemia 68
trends in fatness (committee statement) 443
vitamin D metabolites 729

Obesity,
birthweight doubling time 469
origins of (committee statement) 443
Ophthalmia neonatorum, chart review 884
Optometry, and learning disabilities (letters) 980, 981
Osteomyelitis, scintigraphic detection 173
Oxygen,
impaired supply in cystic fibrosis 480
tension monitoring 681
therapy, AAP recommendations 635, appearance of retro-
lental fibroplasia 599, changing recommendations 618,

Department of Health regulations 638, early history 592, implication of in retrolental fibroplasia 603, state regulations 640

Pancreatic hyperplasia 897
Panendoscopes, flexible fiberoptic 931
Paraldehyde toxicity 158
Paraprofessionals, to teach interviewing skills 769
Parathyroid deficiency states 221
Parental interaction,
child abuse 760
Denver Prescreening Developmental Questionnaire 744
educational intervention 765
urinary tract infection screening 829
Pediatric and medical societies,
Ambulatory Pediatric Society 167
American Academy of Cerebral Palsy 168, 590
American Academy of Pediatrics (*see* individual listing)
American Cancer Society 589
American College of Chest Physicians 436
American Gastroenterological Association 438
American Society of Pediatric Nephrology 168
Association for the Care of Children in Hospitals 436
Chemotherapy Foundation 826
Cystic Fibrosis Club 168
European Society for Pediatric Neurosurgery 589
Great Plains Organization for Perinatal Health 983
International Society for Pediatric Neurosurgery 589
Israel National Academy of Science 168
National Asthma Center 589
National Foundation—March of Dimes 984
National Hemophilia Foundation 984
New York Trudeau Society 983
Rhodesian Medical Association 437
Society for Obstetric Anesthesia and Perinatology 167
Society of Critical Care Medicine 168
Society of Ear, Nose, and Throat Advances in Children 590
Teratology Society 438
WHO 826
Pediatric nurse associates, AAP Executive Board policy (committee statement) 467, (letter) 813
Pediatricians,
and confidentiality (commentary) 170
and consent (committee statement) 414
and malpractice 392
no business like pediatrics (note) 721
where are they? (letter) 165
Pediatrics,
advertising (letter) 581
commentaries praised (letter) 582
controversial issues (letters) 577, 578, 579
Spanish edition (commentary) 1
tribute to unknown reviewers 286
Penicillin, and Hemophilus influenzae meningitis 387
Pharyngitis, treatment variations 423
Phenobarbital, and lupus-like syndromes 529
Phenylketonuria, dietary management (committee statement) 783
Phototherapy,
effect on platelets 506
for hyperbilirubinemia 502, 836
Physician-patient relationship (*see also* Counseling, Ethics),
child abuse 760
compliance 383
confidentiality (commentary) 170
educational intervention 765
interviewing skills 769
malpractice 392
tape-recorder to enhance communication 799
vulnerability of the medical student 321
Phytosterol, levels in children 60
Plantar response 13
Po_2,
clinically irrelevant (letters) 579, 580
transcutaneous monitoring 681
Podophyllum, dangers of 419
Poisoning,
Actifed-C (letters) 164
camphor 428
insecticide 869
lead, from newsprint logs 426, screening method 54
mephenytoin toxicity 99
old medications (letters) 296
paraldehyde toxicity 158
Poliovirus vaccine, and breast-feeding 47
Porencephaly, post-traumatic 26
Prematurity (*see also* Low-birthweight infants, Neonates, Nutrition),
apneic spells and sleep states 142
intravenous scalp needle (letter) 977
necrotizing enterocolitis 201
patent ductus arteriosus 347
pulmonary insufficiency (letter) 294
remaining sequelae 652
Prednisone, in hepatic hemangioendothelioma 131
Pregnancy,
calcium accumulation by fetus (letter) 976
diabetes and fetal lung lecithin 722
effect of cigarette-smoking (committee statement) 411
podophyllum, dangers of 419
transplacental melanoma (letter) 978
Propranolol, screening test for growth hormone deficiency 712
Prostaglandins, and cystic fibrosis (commentary) 441, 474
Pseudomonas cepacia, in a nursery 239
Psychomotor retardation 652

Quality of care (*see* Ethics, Health care, standards)

Race,
and dental caries (committee statement) 457
and fatness (committee statement) 443
Radioisotope scanning, for Meckel's diverticulum 4
Reading, comments on (letter) 816
Respiratory distress syndrome,
diminished lecithin synthesis 32
fetal lung lecithin in monkey 722
incidence of patent ductus arteriosus 347
Po_2 monitoring
pulmonary blood flow 187
Retrolental fibroplasia,
appearance of 599
etiologic factors 639
implication of oxygen in 603
Rickets,
and anticonvulsants (letters) 979
and 25-hydroxyvitamin D 221

experimental pathogenesis (note) 186

Scheie syndrome 111
School problems,
corporal punishment (letter) 293
hyperactivity and learning disabilities 4
Scintigraphic detection of osteomyelitis 173
Screening,
Denver Prescreening Developmental Questionnaire 744
for citrullinemia 935
for growth hormone deficiency 712
for iron deficiency 136
for lead poisoning 54
for urinary tract infection 935
guidelines (letters) *160, 161*
risks of (commentary) 646
Skateboard accidents (committee statement) 793
Skull fracture,
and post-traumatic hypopituitarism 893
growing 26
Sleep states,
and apnea *142*
hypoventilation during quiet sleep 342
Sphingolipodystrophy 106
Splenic hemangiomatosis 803
Sports,
Evel Knievel syndrome 418
organized, and children (note)
skateboard accidents (committee statement) 793
Staphylococcus aureus, nosocomial infection 854
Stigmasterol, levels in children 60
Streptococcal,
cervical adenitis 421
pharyngitis 422
varicella gangrenosa 306

T cell malignancies (letter) 162
Tape-recorder, to enhance communication 799
Teeth, dental caries (committee statement) 457
Television,
effect on children (commentary) 301
Evel Knievel syndrome
violence and apathy 329
Temporomandibular joint arthritis 810
Testes,
intrauterine torsion 262
pediatric urology 971
Tetracylines, requiem for (letters) 297, 298
Thanatology,
books about death 372
deciding care of the handicapped and dying 487
Theophylline,
compliance with therapy 513
secretion into breast milk 518
Thrombocytopenia 839
Thymus,
cells as therapeutic agents (commentary) 643
in leukemia 296
Tonsillectomy, review 401
Transplantation, thymic (commentary) 643
Transport defect 102
Tyrosinemia,
and intellectual deficit 675
dietary management of (committee statement) 783

Ultrasound,
echocardiography in the infant 543
safety of (letters) 162, 163
Urinary tract infections,
and allergy 526
detection 829
documentation 734
Urology,
current trends 971
persistent Mullerian structures 568

Varicella gangrenosa 306
Vitamin D,
in rickets 231
metabolites 729
toxicity in hypoparathyroidism 794

Water,
carcinogens in (committee statement) 462
Pseudomonas cepacia infection 239
Wilms' tumor 564

Xanthines, for apnea (letter) 293

SUBJECT INDEX

Items of pediatric and medical interest from other sources which appeared in this volume are included in the index and are followed by "note" in parentheses. "Ethics" includes items and topics of interest to ethicists as well as ethical issues *per se*.

Abdominal pain, in sickle cell disease 252
Abscess, pyogenic liver 614
Accidents (*see also* Poisoning),
  automobile, deaths (letters) 138, 139, restraints 316,
    safety (commentary) 307, social learning approaches 323
  flammable and nonflammable clothing 585
  heat stress 101
  lethal pacifier 853
  near-drowning 572
  predicting frequency 223
  tracheobronchial foreign bodies 362, 853
Acetaminophen
  absorption, and activated charcoal 432
  toxicity, and Reye's syndrome (letters) 918
Acidosis,
  lactic, in three sibs 564
  role in hyaline membrane disease 184
Activated charcoal, and acetaminophen absorption 432
Adolescent medicine,
  alcoholism (note) 176
  cholesterol in Pima Indians 274
  staphylococcal sepsis 59
Adrenergic drugs, in cystic fibrosis 740
Alaninuria 713
Alcoholism, in childhood (note) 176
Allergy (*see* Hypertensivity)
α-Ketoglutarate defect 564
Alveolar ridges, lymphangiomas of 881
American Academy of Pediatrics,
  advertising and income (letters) 302
  announcements 143
  automotive restraints 316
  blood pressure recommendations challenged (letter) 141
  COMMITTEE STATEMENTS:
    Fitness in the Preschool Child 88
    Iron Supplementation for Infants 765
    Megavitamin Therapy for Childhood Psychoses and Learning Disabilities 910
    Pediatric Nuclear Medicine 459
    The Pediatrician and Genetic Screening (Every Pediatrician a Geneticist) 757
  hyperkinesis medication (letter) 303
  statement on medication challenged (letters) 631
American Board of Pediatrics,
  fee change (note) 833
  its mission (commentary) 790
Amikacin, pharmacokinetics of 873
Aminoglycoside, in urinary tract infection 873
Aminophylline,
  a weak bilirubin displacer (letter) 462
  in asthma 542
  in apnea of prematurity 335
Ampicillin,
  diarrhea 869
  otitis media 532
  resistant *Hemophilus influenzae* 383, epidemiologic characteristics of 388
Anesthesia, obstetric,
  British debate on (commentary) 308
  effect on newborn behavior 94
Anterior tibial compartment syndrome 456
Antibiotics (*see also* individual drug listings),
  academic mischief (letters) 462
  helpful hint from a sage (letters) 775
Aphasia, temporary, from *Mycoplasma* infection (letter) 464
Apnea,
  aminophylline 335
  chemoreceptor function 31
  monitors (commentary) 1, letter 632
  sleep, in children 23
  sleep states 31
  theophylline questions (letter) 463
Appendicitis, pelvic 292
Artery, umbilical, and paraplegia 443
Arthritis,
  diagnosis questioned (letters) 136
  juvenile rheumatoid, and serum enzyme abnormalities 730
Asphyxia, from pacifier 853
Aspirin, in juvenile rheumatoid arthritis 730
Asthma,
  diazepam-associated (letters) 136, 137
  physical signs 537
  pancrelipase sensitivity (letters) 141, 142
  theophylline, pharmacokinetics 542, use (commentary) 623
Atrioventricular block, and meningitis 866
Atropine, in bradycardia 494
Autism, environmental (letter) 297
Automobile,
  deaths (letters) 138, 139
  heat stress 101
  restraints 316, pediatric counseling (letters) 138, 139, social learning approach 323
  safety (commentary) 307
  speech (note) 823

Bacitracin, and staphylococcal infection 354
β-Hemolytic *Steptococcus*, home cultures (letters) 301
β-Lactamase test 382
Bilirubin, and aminophylline (letter) 462

Birth defects (*see* Congenital defects and anomalies)
Birthmarks,
incidence in neonates 218
practical significance of (commentary) 150
Blood (*see also* individual constituents, Hemorrhage),
fetal hemoglobin in subarachnoid hemorrhage 751
hemolytic-uremic syndrome 561
hemostasis, normal neonatal 548
lead level 465
transfusion 640
Blood pressure (*see also* Oxygen tension),
familial aggregation 722
in black newborns 283
in erythroblastotic newborns 484
in respiratory distress syndrome 177
in white newborns 283
recommendations challenged (letter) 141
Bone,
effect of steroids on growth 412
Jansen's metaphyseal dysostosis 556
marrow transplant 451
transillumination of the skull 737
BOOK REVIEWS:
A Child's Parent Dies 781

edema 78
metastases, in Wilms' tumor 130, scanning 72
minimal brain dysfunction (*see* Hyperkinesis, Learning disabilities)
Breast-feeding,
and iron sufficiency 686
and sudden infant death syndrome (letters) 465
leukocytes in human milk (commentary) 769
Breasts, enlarged, in infants (letter) 465
Bromide space, corrected 809
Bronchopulmonary dysplasia (see also, Lung, Respiratory distress syndrome, Ventilation), home management 856
Bronchoscopy 362
Bureaucracy, and recertification (letter) 632
Burns, and flammable and nonflammable clothing 585

Carbamyl phosphate synthetase deficiency 227
Carcinoma, thyroid 521
Catheters,
cardiac 456
umbilical artery, and paraplegia 443
venous 446
Cephalexin, in otitis media 532
Cerebral edema 78
Cerebral palsy,
and physical therapy 47,
doubting and certainty (commentary) 7
Chemotaxis, in pyogenic infection 513
Child abuse,
HEW and spanking (note) 109
pseudobattering 616
Child growth and development,
anabolic steroids, effect on growth 412
assessment at school entry 403
childhood psychoses and megavitamin therapy (committee statement) 910
chronic illness, and the pediatrician (commentary) 5, regional care 37
desipramine, effect on growth 423
development of attention 669
encopresis 845
environmental autism (letter) 297
dextroamphetamine, effect on growth 423
home treatment and parent-child relationship 856
imipramine, effect on growth 423
Jansen's metaphyseal dysostosis 556
language screening test (letter) 915
learning disabilities, and diet (commentary) 145, evaluation 407, megavitamin therapy (committee statement) 910, office approach to treatment 409
meaning of crying (letters) 295, 296
methylphenidate, effect on growth 423
mosaic vs. trisomy 21 Down's syndrome 744
nutritional supplementation for disadvantaged children 697
phenylketonuria, and birthweight 812, and intellect 85
predicting adult stature 368
psychosocial problems (commentary) 471, 595
safety of low-saturated-fat diet 655
school failure 392, evaluation and treatment 394
seizure disorders 828
China,
views questioned (letters) 913
why run article? (letters) 464
Chloramphenicol, and *Hemophilus influenzae* 383
Cholelithiasis, in sickle cell disease 252
Cholesterol,
in children of men with myocardial infarction 211
in Pima Indian children 274
safety of diet 655
Chromosomal abnormalities (see Genetics)
Chronic illness,
and the pediatrician (commentary) 5
regional care 37
Cigarette-smoking, passive, and sudden infant death syndrome 665
Circulating endotoxin 561
Circumcision, ten-year overview 824
Clonidine poisoning 749
Clostridia infection 126
